Mockup-Review-Notes

Creative Director: Ashley Lee
Designer: Ali Gold

- I think the section bar "Background…Boyband" could be located on the top of the page instead of the bottom

- I do think the color scheme for the entire web could go darker into grey, as that is his band's signature color, and think that this is an important factor

- Text seems too big, maybe make text smaller and instead break them off into paragraphs and give them spaces in between.

- Overall layout looks very consistent and nice and concept fits well, just make sure the pictures are not pixellated when it is scaled to the size of the whole screen.
